

Ergonomic, safe & cost reducing: Escape-Mattress® VACUUM

The only 4 in 1 solution for the professional

What is an Escape-Mattress® Vacuum?

The Escape-Mattress® Vacuum is the perfect piece of rescue kit that has 4 FEATURES in 1: **stretcher mattress, drag mattress, carry mattress & vacuum mattress.**

As a result, this makes patient transport safer, more comfortable and with minimal need to transfer. This makes the rescue for a professional rescuer easier and more ergonomic. Besides that you save money, time and space because of the fact it is a 4 in 1 mattress!

Advantages Escape-Mattress® Vacuum:

- Inventive vacuum system, which can be split, allows secure and comfortable transfer of the patient into the "bed" of the emergency room.
- Made to measure stretcher made in our own production department.
- Adjustable foot cover (patented).
- Made of high quality & fire resistant materials.
- Blood-, urine-, acid and alkali resistant.
- OHS & ergonomic accountable.
- No more unnecessary transfers needed.
- Ready to use within seconds.
- Cost and space saving in the ambulance.
- CE & TÜV certified.

Our Experience:

For over 6 years Escape Mobility Company manufactures evacuation and stretcher mattresses and so we know what is important for the professional rescuers.

The development of the Escape-Mattress® Vacuum was created by working together with the Dutch White Cross and local ambulance services.

Our advice:

Make sure that your ambulance is equipped with an Escape-Mattress® Vacuum. A 'must-have' piece of kit for rescue. Saving you time, space and money!

Re-inforced bottom

Adjustable foot cover

Sturdy handles

Vacuum connection for manual & LSU

Splittable vacuum system
