

Escape-Mattress Fold

The **Escape-Mattress Fold** is folded double so that makes it easy to move and store. Once unfolded, this evacuation mattress is immediately ready to use. This mattress can be stored both hygienically and dust-free, by purchasing either a storage bag or an Escape-Locker.

The **Escape-Mattress** is made of fire resistant material that is resistant to blood, urine, acids and alkaline as well.

CE, TÜV NORD & ISO certified up to 150kg payload.

There is no better and more durable quality available on the market than any of our **Escape-Mattress** range.

Advantages of the Escape-Mattress Fold:

- Stored double-folded (space saving)
- 4 carrying handles on each side

Protection of evacuee/patient:

- 4 body flaps – 2 per side
- Foot bag
- Adjustable headrest

Best choice for healthcare environment and public buildings

What's an Escape-Mattress?

Escape-Mattress models are designed for individuals who would not be able to comfortably get into an evacuation chair, or where evacuation chairs may struggle (for example when evacuating an individual down a spiral staircase). Evacuation mattresses are ideal for medical centres and hospitals, as they cater for complex healthcare needs. E.g. bed-bound and unconscious patients. **The Escape-Mattress** is an "A-label quality" product and produced in-house.

Our mattresses are CE, TÜV NORD & ISO certified up to 150kg payload.

We guarantee the highest quality standards.

Usage:

The **Escape-Mattress Fold** is mainly used in healthcare environments and (public) buildings.
